6 March 1958

MEMORANDUM FCR: Director of Training

SUBJECT

: Intelligence School Weekly Report #9

28 February through 6 March 1958

- l. The initial drafts of long-term schedules (FY1959) have been prepared by each of the Faculties. They are now being revised slightly to improve the sequence for major groups of students, e.g., JOT's, support personnel going overseas, etc. There are two chief difficulties here:
  - a. Sequence of courses for greatest convenience to the one group of students, JO's, for example, may make it difficult to schedule for another group, e.g., the support types.

b. Space is extra	mely tight bot	h in	R & S.
Because of space			er schedule
to the Ops School	olan, mereas	the IO and	i other
Intelligence School	L courses have	to key ix	n with SIC
and with R & S clas		•	
requirements can be	only approxi	mately pul	Lled
together.			

<b>_</b>	Chi.ef,	Intelligence	Schoo
